

Ancient Empires Travel Brochure

You will be creating a travel brochure for the ancient empires we have studied this unit. You will design a brochure extolling the wonders of three of these civilizations and what made them great! The civilizations you need to include are the

- a. Han (China)
- b. Greece
- c. Roman

Directions: Research elements of the three civilizations that we have studied. Present the information in the form of a **travel brochure** complete with pictures, information and your own creativity.

Introduction: Describe why we study ancient civilizations and why it would be a good idea to visit these historic places. One section of your brochure must include this information.

Research Specifics: *(Three Civilizations required!)*

1. Picture from each civilization
2. Brief description/history written in your own words that **MAY** contain:
 - daily life
 - class/gender issues

and **MUST** contain:

- religious traditions
 - lasting achievements/inventions
3. Role Geography played in their development with specific references to:
 - climate
 - bodies of water
 - other important physical features
 4. Important ancient places to visit *(do not include places that did not exist in the ancient world)*

Physical Attribute Specifics: *brochure appearance*

1. Title Page needs to look nice and include:
 - a creative title
 - your name and hour
 - a visual (picture)
2. Back Page needs to have a visual representation (picture) that sums up the entire project or theme of the project and information encouraging people to travel to the ancient world.

Important Notes:

1. Brochures should be in **full color** – printed or colored by hand
2. All written work must be in your own words. All plagiarism will be subject to consequences that include parent notification and loss of credit on the assignment.

3. All pictures are to be neat, appropriate, and be cited on the back of the brochure. They may be downloaded, cut out of a magazine, scanned, or NEATLY drawn. Also, DO NOT include copyrighted images.

Brochure Layout:

Digital Option: Computer software may be used to create the brochure but is not necessary. I suggest Publisher or a template in Word to make your brochure. You must have a tri-fold style. This means that you should use one 8 1/2 x 11 piece of paper (front and back), and it should be folded in thirds.

Analog Option: Without software -

Fold a piece of paper into equal thirds so each side contains three panels. Be sure to write clearly and NOT in pencil.

Directions:

1. One side will have the three panels for the three civilizations. How you structure the panel itself is up to your own creativity.

<p>Cover</p> <p>Creative Title</p> <p>Your Name</p> <p>Your hour</p> <p>A picture</p>	<p>Back/Image</p> <p>A picture</p> <p>Include MLA citation for all information and images that are NOT original</p>	<p>Why Tour Ancient Civilizations?</p> <p>Include highlights, information on why we study the ancients and common characteristics among ancient empires.</p>
--	--	---

<p>Civilization #1</p>	<p>Civilization #2</p>	<p>Civilization #3</p>
-------------------------------	-------------------------------	-------------------------------

2. The other side will have three panels for the Title Page, the Back Page, and the “Why Visit the Ancient World?” Page.

***When the paper is folded it should be a brochure with everything in the correct place: title page, three civilizations on the inside, “Why Tour the Ancients?” folded over inside the title page, and the back page as the last panel if the brochure is turned over.
